GOOD EXCUSE

Book salesman Mori has a wife and kids, but he's still famous for screwing his way to success. He's popular with both men and women, when it comes to sales, whether it's because of his social skills or his silver tongue. Bookstore employee Hino is the perfect mark for the skilled Mori. He doesn't want to, but little by little, he's being taken in...

Mori-san, who gained popularity in the BL anthology "Gesu BL," makes an appearance! His rudeness continues to know no bounds, as he continues his shameless way! "I'm a bad person, so it's fine, isn't it?"
